PHARMACEUTICAL PLANTS MEET PLANS

Workers of the Arikhmin Chemico-pharmaceutical Factory have completed the first-quarter plans. Production quotas in some categories, among them, atabrine, rivanol, white streptocid, disulfan, anesthetic ether, were overfulfilled. Reconstruction of the sulfidine shop has been completed, and it is now capable of producing 2½ times more sulfidine than before.

The workers of the Penzen Factory for Disinfectant Equipment have completed the first-quarter plan 14 days ahead of schedule. The boiler-assembly shop has shown the best effort in Socialistic Competition.

The Moscow Chemicopharmaceutical Factory No 9 has completed the first-quarter plans in all categories of its basic products. Much effort is being expended to raise the production of mercurial, coremine in ampules, sancafeine, hexylresorcinol, etc, to record heights.
